

THE SHOWSTOPPER

Overview

A deluxe entertaining area perfectly finished in striking black and pink quartz to compliment the surroundings. This showstopping project brings together a Renson Louvered Canopy with a premium outdoor kitchen within.

Background

Our client had a specific vision in mind for a striking new poolside outdoor kitchen with entertaining guests at its heart. The showstopping presentation of the project would compliment the large established garden and existing poolside furnishings.

Proposal

The clients clear vision meant the creation of a proposal would encompass a number of bespoke items across a broad range of brands hand-selected by the client.

The area for development had an existing basic outdoor kitchen so the proposal needed to include removal of this kitchen and old slabs, before providing a new secure foundation and footings for the Renson Camargue to sit upon, along with placement of a Millboard decking floor.

Millboard are the market leaders in outdoor decking due to the unique properties of their products. Their material base ensures durability with minimal movement in the boards, no warp and no rot. Added to the highly accomplished wood grain effect, they are a popular choice.

The Renson Camargue proposed allows for all year round entertaining with customisable retracting screens that can be lowered as required but are hidden from sight when raised. Recommendations of heat bar, Bluetooth speakers, integrated colour-changing lighting plus rain and wind sensors were all made to enhance the use of this space.

Sitting within the Renson Camargue would be the outdoor kitchen. Fully clad in Midnight Quartz granite at the clients request, the wide worksurfaces, finished in Rosa Stella Quartz granite, are spacious and plentiful creating a large bar area. The client required a Bermar Terre De Vin included in the design alongside four double fridges, and accomodating this inclusion allowed for the depth of entertaining the client wishes to fulfil.

Inside the Outdoor Kitchen we recommended the US manufactured Fire Magic Outdoor Kitchen equipment, with its life-time warranty and polished stainless steel construction it was the obvious recommendation for the large gas BBQ and side burner. A large Tandoor from The Tandoor Clay Oven company and a table-top pizza oven from authentic Italian manufacturers Alfa Pizza keep creative entertaining at the heart of this kitchen with plenty of space within the design for cooking and serving simultaneously.

Build

With an initial removal of an existing outdoor kitchen complete, we replaced the concrete base before setting in place all the cables required for this modern outdoor kitchen. With the addition of a Bermar Verre De Vin in the design, placement of an airline was also required for the compressed air required by this equipment. Millboard decking was placed on top of the footing and the blockwork base of the Outdoor Kitchen constructed.

With easy access to the site the Renson Camargue was constructed smoothly resulting in an outstanding finish, complemented by the footings of the Renson being discretely hidden under the Millboard decking.

With the Renson Camargue in place, the bespoke granite cladding could take place. The precise tolerances required by our experienced granite supplier were met and a finishing polish resulted in the mirror shine Midnight Quartz clad finish pictured. Rosa Stella Quartz granite worksurfaces had bespoke routing on the underside to hold LED strip lighting that is unseen to the eye. The construction of this stunning project resulted in this showstopping outdoor kitchen that combines technical skill with high quality equipment and presentation.

Product Portfolio

- ◆ Renson Camargue with Sound, Light and Heat Bars, Rain and Wind Sensors and Retracting Screens.
- ◆ Alfa Pizza 5 Minuti Wood-Fired Pizza Oven
- ◆ Fire Magic Echelon 1060 BBQ with Magic View Window
- ◆ Fire Magic Side Burner
- ◆ Fire Magic Warming Drawer
- ◆ Fire Magic Single Access Doors
- ◆ Bermar Verre de Vin
- ◆ Deluxe Tandoor with 8 Skewers
- ◆ Millboard Smoked Oak Flooring
